Student Feedback Analysis Report (2020-21)

Introduction

VRAL Govt Girls College, Bareilly is situated in civil lines area of Bareilly, Uttar Pradesh and is affiliated to Mahatma Jyotibaphule Rohilkhand University, Bareilly. The college offers various courses like B. Com., B.A., and B.Sc. at Under Graduation level and M. Sc and M. A. at Post-Graduation level. The Internal Quality Assurance Cell (IQAC) of the College has continuously been working on quality improvement and the betterment of student learning experiences. In order to analyse the lag areas of the college and scope for further improvement, feedback from students has been received. This report focuses on the feedback of students on Study Material and Teachers' involvement and internal assessment and follow-up.

Data Collection and Analysis

An effort was made to receive online feedback from students of the college. For this purpose, a google form was created and circulated among the students from all streams. Data was collected from responses received. In order to arrive at comprehensive results, useful statistical tools have been used. For the effective presentation of the data, various types of graphs have been shown here.

Student Feedback Survey Form

1. The study material for each course is-

- a. Sufficient b. Insufficient c. Challenging d. Monotonous

OBSERVATIONS AND RECOMMENDATIONS

1. About 90 percent of students agreed that sufficient material is available for the course while remaining disagreed. Resources should be evaluated again to satisfy the need of remaining students.
2. About 70 percent of students said that study material is easy to understand and 10 percent found it not that easy and remaining found it difficult to understand. Efforts should be made by teachers for better understandability of students.
3. About 80 percent of student felt that teachers come to class with good preparation while remaining thought otherwise. Teachers are recommended to continue the current practice and try to amend new ways.
4. About 65 percent of students agreed that teachers promote participative learning while remaining did not agree completely so it is advisable to teachers that new methods to improve student's contribution to participative learning should be implemented. Sometime few students need special attention and ways; teacher may search new ideas and consider lagging student with special attention.
5. In view of 91 % students internal assessment has positive effects on thie exam results while remaining either thought opposite or were not clear about it. But a slight improvement in internal assessment can definitely improve final outcomes. Steps should be taken in this direction too.
