## **Student Feedback Analysis Report (2022-23)**

### **Introduction**

VRAL Govt Girls College, Bareilly is situated in civil lines area of Bareilly, Uttar Pradesh and is affiliated to Mahatma Jyotibaphule Rohilkhand University, Bareilly. The college offers various courses like B. Com., B.A., and B.Sc. at Under Graduation level and M. Sc and M. A. at Post-Graduation level. The Internal Quality Assurance Cell (IQAC) of the College has continuously been working on quality improvement and the betterment of student learning experiences. In order to analyse the lag areas of the college and scope for further improvement, feedback from students has been received. This report focuses on the feedback of students on Study Material and Teachers' involvement and internal assessment and follow-up.

### **Data Collection and Analysis**

An effort was made to receive online feedback from students of the college. For this purpose, a google form was created and circulated WhatsApp group of students from all streams. Data was collected from responses received. To arrive at comprehensive results, useful statistical tools have been used. For the effective presentation of the data, various types of graphs have been shown here.

## **Student Feedback Survey Form**

**1. The study material for each course is-**

According to 30 percent students girls common room, 21.3 percent playground and 6.3 percented wanted library to get improved.

## **OBSERVATIONS AND RECOMMENDATIONS**

1. A good percentage of students agreed that sufficient material is available for the course while the remaining disagreed. Resources should be evaluated again to satisfy the need of remaining students.

2. Great proportions of students said that study material is easy to understand and lesser found it not that easy and remaining found it difficult to understand. Efforts should be made by teachers for better understandability of students.
3. Fine percent of students felt that teachers come to class with good preparation while remaining thought otherwise. Teachers are recommended to continue the current practice and try to introduce new ways.
4. More percent of students agreed that teachers promote participative learning while remaining did not agree completely so it is advisable to teachers that new methods to improve student's contribution to participative learning should be implemented. Sometime few students need special attention and ways; teacher may search new ideas and consider lagging student with special attention.
5. In view of about 76% students' internal assessment has positive effects on their exam results while remaining either thought opposite or were not clear about it. But a slight improvement in internal assessment can improve final outcomes. Steps should be taken in this direction too.
6. Students must get a better environment for learning experience and a collaborative approach should be taken for the purpose.
